#### LEE ENSIGN, PH.D. CLINICAL PSYCHOLOGIST

In preparation for your initial appointment, I would like to provide you with a brief introduction to answer questions you may have about office procedures and what to expect from today's appointment.

People seek counseling or psychotherapy for many different reasons – marriage or family problems, job or financial stress, depression, anxiety or traumatic events in the present or past, to name a few. The appropriate course of treatment depends on the nature and history of your personal concerns, so today's session will focus on obtaining information about your reasons for seeking therapy and relevant background information. Please try to be as frank as you can in expressing your concerns, as this will allow us to be more effective in working together to formulate a helpful treatment approach. Also, please do not hesitate to ask any questions you have about office or billing procedures or the process of therapy itself.

The confidentiality of the therapy process is protected by state and federal law. This means that anything discussed or disclosed in the course of treatment will be held in strictest confidence. Should you wish me to release information to a third party, I will obtain your written consent to do so. That consent may be revoked by you at any time.

There are three circumstances under which a psychologist may be required to release information without patient consent: 1) if the psychologist has clear reason to believe that a patient poses inuminent bodily danger to him or herself or to a specific third person; 2) if the psychologist has reason to believe that a minor child is being or has been abused or neglected; and 3) if a judge specifically orders the release of records.

If you wish to use insurance to assist with treatment costs, please note that many insurance and managed care organizations require either limited or full release of clinical information to authorize payment of claims and to document medical necessity for services provided. The information required may be limited to diagnosis and dates of service or may be extensive as on-site review of all records included in your designated mental health record set. Please feel free to speak with me or to contact your insurance carrier or managed care organization if you have questions about these procedures. Your sense of privacy is very important for successful treatment, so I strongly encourage you to raise any concerns you have about confidentiality or its limitations.

Fees will be discussed in your initial session. If you wish to pay for sessions on a fee-for-service basis, full payment is expected at the time of the appointment unless other arrangements are made. Please let me know if you wish to set up an incremental payment plan or schedule, and I will be happy to discuss this with you. MasterCard and Visa payment options are available also. If you wish to use your health insurance to help with the costs, co-pay and deductible payments are expected at the time of the appointment. You will be responsible for any unpaid balance with the exception of circumstances or fees specified in provider agreements with your insurance or managed care company. Statements are issued once monthly. Should you have any questions regarding your statement or insurance claim, please contact Ms. Debra Patterson, office manager, at (865) 376-1585.

For routine messages, you may leave a message for me at my office [(865)376-1585 extension 108]. For an urgent message, please leave a message on my voice mail and follow the prompts so that I may be paged. For emergencies only, you may also call me at home [(865) 483-5840]. In the event that I am out of town or otherwise unavailable, my voice mail greeting will advise you of the name and number of the clinician who is providing emergency coverage.

Appointment times are reserved specifically for you, and 24 hours notice is requested if you are unable to keep a scheduled appointment. You may leave a message at (865) 376-1585 with the front office or at my extension 108 if you must cancel a schedules appointment. Should you fail to give such notice, a \$40 fee will be charged, which will not be reimbursed by insurance.

I recognize that from time to time circumstances may arise which impact one's capacity to meet payments on the agreed-upon schedule. Should this occur, please let me know. I will be happy to work with you on a payment plan which is manageable for you. However, in the event that a good faith effort is not made toward payment for services, I reserve the right to turn delinquent accounts over for collection.

I hope this information is useful in explaining basic policies. Please keep a copy of this document for your records. Your signature below indicates that you have read this document, agree to the patient responsibilities outlined, and have received a copy.

### PATIENT NOTIFICATION OF PRIVACY RIGHTS

The Health Insurance Portability and Accountability Act (HIPAA) has created new patient protections surrounding the use of protected health information. Commonly referred to as the "medical records privacy law", HIPAA provides patient protections related to the electronic transmission of data ("the transaction rules"), the keeping and use of patient records ("privacy rules"), and storage and access to health care records ("the security rules"). HIPAA applies to all health care providers, including mental health care providers and health care agencies throughout the country are now required to provide patients a notification of their privacy rights as it relates to their health care records. You may have already received similar notices such as this one from your other health care providers.

As you might expect, the HIPAA law and regulations are extremely detailed and difficult to grasp if you don't have formal legal training. My Patient Notification of Privacy Rights is my attempt to inform you of your rights in a simple yet comprehensive fashion. Please read this document as it is important you know what patient protections HIPAA affords all of us. In mental health care, confidentiality and privacy are central to the success of the therapeutic relationship and as such, you will find I will do all I can do protect the privacy of your mental health records. If you have any questions about any of the matters discussed in this document, please do not hesitate to ask me for further clarification.

By law, I am required to secure your signature indicating you have received this Patient Notification of Privacy Rights Document. Thank you for your thoughtful consideration of these matters.
